Vol. 32, No. 1+2

Editorial 1

Correlations for effective bubble rise velocity in three-phase ebullieted beds
D.A. Deshpande, M.D. Deo and F.V. Hanson (Salt Lake City, UT, USA) 3

Scanning electron microscopy of treated bituminous coals
H. Huai (Salt Lake City, UT, USA), A.F. Gaines (Erdemli, Turkey)
and C.D. Flint (London, UK) 25

Structure and catalytic activity of regenerated spent hydrotreating catalysts
C.-S. Kim, F.E. Massoth (Salt Lake City, UT, USA)
and E. Furimsky (Ottawa, Ont., Canada) 39

Energetic analysis and optimisation of an integrated coal gasification–combined cycle power plant
E.E. Vlaswinkel (Enschede, The Netherlands) 47

Influence of carbonisation temperature on the gasification of Acacia wood chars by carbon dioxide
M. Kumar, R.C. Gupta (Varanasi, India) and T. Sharma (Dhanbad, India) 69

Gel permeation chromatography for simple evaluation of the extent of upgrading of coals and heavy oils
M.L. Selucky, R.J. Parker and Z.G. Frakman (Devon, Alba., Canada) 77

Temperature-staged liquefaction of coals impregnated with ferrous sulfate
L. Artok, H.H. Schobert and A. Davis (University Park, PA, USA) 87

Upgrading of an Australian coal-derived liquid.
1. Initial activity dependence on loading for Ni–Mo/Al_2O_3 catalysts
A.T. Townsend and F.P. Larkins (Hobart, Tasmania, Australia) 101

Upgrading of an Australian coal-derived liquid.
2. Characterisation of Ni–Mo/Al_2O_3 catalysts
A.T. Townsend and F.P. Larkins (Hobart, Tasmania, Australia) 115

Vol. 32, No. 3

Effects of solvents on free radicals of bitumen and asphaltenes
K.C. Khulbe, R.S. Mann, B.C.-Y. Lu, G. Lamarche and A.-M. Lamarche
(Ottawa, Ont., Canada) 133

Removal and recovery of nitrogen compounds in crude methylnaphthalene oil using aluminium sulfate supported on silica gel
K. Sakanishi, Y. Ni Sun, I. Mochida (Fukuoka, Japan)
and U. Hidehiko (Miyagi, Japan) 143

Estimation of the average structural parameters from asphaltites and oil shales-pyrolysis products by ^1H and ^{13}C NMR spectroscopy
A. Önen, A. Sezai Sarac, A. Önen and E. Ekinci (Istanbul, Turkey) 151

Effect of blending low-grade anthracite products with bituminous coals on combustion characteristics in a bench-scale stoker simulator
S.V. Pisupati, B.G. Miller and A.W. Scaroni (University Park, PA, U.S.A.) 159

Short Communications
Models for prediction of total and carboxyl acidity of low rank coals
K.P. Singh (Jorhat, India) 181

Reaction-induced variations in the solubility of coals
C.K.S. Nair, B. Krishnakumari and M. Pardhasaradhi (Hyderabad, India) 191

Erratum 197
